

grēnware™  
ecology & design

## earth-friendly dinnerware

### eco-elegance

**grēnware** is a perfect marriage between ecology and design. The result is a chic tabletop priced for everyday living.

**grēnware** is made primarily with renewable plant fiber from coconut, straw and rice hulls. The colors are naturally derived from plants to create beautiful table settings.

This line is intended to last up to five years and then can be discarded or composted. When you're ready for something new, simply break it and throw it away without guilt. In proper conditions it will biodegrade in as little as 4 months.

This is not your momma's melamine! The line contains no petroleum or plastic, making it both food safe and also completely eco-friendly.

ecology and design:  
beautiful table, beautiful planet

# grēnware™

ecology & design

## durable

Strong enough for picnics or pool-side meals, yet elegant enough for white tablecloth dining.

In addition to being earth-friendly, grēnware is actually dishwasher safe. However, as with glass and plastic, etching may occur and the product life span may be somewhat shortened with regular dishwasher use. *(Not recommended for oven or microwave.)*

## affordable

With grēnware you get cutting edge design on a budget. Your eco-minded customer can buy green and still keep some "green" in the bank. grēnware has an expensive look, but is moderately priced and accessible to most customers.

In keeping with our principle of simple living, we have just two perfect pieces in two sizes and colors so place settings can be mixed and matched to suit any taste.

## at a glance

**Beauty:** grēnware is a natural product. As such we expect and appreciate the natural variations which sometimes occur. We see the variation as reminders of the planet's diversity and beautiful imperfections.

**Material:** Plant cellulose. Mainly rice hulls and coconut fiber

**Organic:** Not certified organic, but eco-friendly and bio-degradable

**Colors:** No Dyes. Two rich, natural earth tones

**Lifespan:** Up to five years

**Food Safe:** Yes

**Dishwasher Safe:**

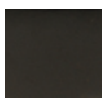

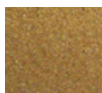

Yes

**Microwave and**

**Oven Safe:** No
